

Position Vacant

Manning, Cooper and Associates Ltd

Manning, Cooper and Associates Ltd (MCA) is a consulting firm working in the fields of environmental assessment, wildlife management, applied forestry, and landscape management. We currently maintain three offices in British Columbia: Coastal Office (Parksville), Northern Interior Office (Prince George) and Northwest Office (South Hazelton). To learn more about Manning, Cooper and Associates Ltd please visit our website at www.manningcooper.com.

MCA is currently seeking to fill two Intermediate Level Biologist positions in our Prince George office. These positions will report to Project Managers and will have a wide range of responsibilities including development and delivery of projects, leading field studies, leading preparation of reports and other project products, supervision of junior staff, and liaison with clients. Only those seeking a fulfilling career position in the environmental consulting field need apply. Positions are best suited to self-motivated, results-oriented persons.

The successful candidates will have a post-graduate degree (wildlife biology, forestry or environmental science) and at least 2 years of relevant experience (wildlife inventory, wildlife habitat assessment, and environmental assessment) or a B.Sc. degree plus a minimum of 3 years experience. The preferred candidate will have RPBio status or eligibility for RPBio status. Leadership and strong communication skills are essential, as is the ability to multi-task and work in a team environment. Candidates with expertise with bio-statistical analyses will be given preference. Ideal candidates would have expertise in two or more of the following areas:

- Bio-Statistical analysis
- Avian survey methods
- Environmental assessment
- Radar technology
- Fisheries
- Bats
- Large mammals
- Plant ecology

MCA provides competitive salaries and benefits. To apply please email resume to John Cooper: jcooper@manningcooper.com .

Positions will remain open until filled.
